Dear Medical Practitioner

We would appreciate your co-operation in providing the information requested in this form.

Insurance disability has two components i.e. functional impairment and disability. The assessment of functional impairment rests with various medical experts and is aimed at establishing the degree of impairment of normal functions due to medical, psychiatric or traumatic causes after reasonable treatment. It also involves the duration of the impairment, whether it is of a permanent nature or temporary, and if temporary the likely duration and prognosis.

The decision regarding disability is a legal decision taken by the insurance company and is based on details of the claimant, the occupation for which the claimant is insured, the terms and conditions on which the risk was accepted and the contract issued and the medical impairment of the life assured itself. The information requested, is therefore required to assist us in reaching this decision as quickly as possible.

The fee payable is in accordance with the scale agreed by Liberty Life. Please do not hesitate to contact us if you require further information.

Thanking you in anticipation.

Yours faithfully

Liberty Life
